

## CONTACTLESS DELIVERY

*We provide a zero-contact delivery option for extra safety and peace of mind.*

### HOW DOES CONTACTLESS DELIVERY WORK?

You or a designated person must be present to accept your order.

Your order is boxed and placed in a transparent bag.

We place your order outside your door, eliminating the need for direct contact. We text or call you (per your request), then knock or ring your doorbell, and step back 6 feet so you can collect your order.

Because you pre-paid, there's nothing to sign. Text back to confirm receipt. If you have a doorman or someone else accepting your order, we will take a photo of the drop off and text it to you.
